Hi Stan,

I am checking in to see if you have had an opportunity to connect with Brad regarding a draft contact for the board to consider. As I reflect on where we stand right now in this negotiations process, I continue to feel strongly that we need to bring our position forward as directly as possible.

I am going to be tied up for much of the day tomorrow, but if you have questions for me about this issue please don't hesitate to give me a call. If it would be possible to get a status update sometime tomorrow I would appreciate it.

I hope you are enjoying your time away from the office. Have a great evening.

Thanks,

Bryce

Hi Stan,

I hope you are enjoying some well needed time off for Spring Break.

I am writing to make a request regarding negotiations. I know that we are all working our way through this new process which makes our job somewhat more difficult and certainly more awkward. As a result, I would like to see something concrete put in front of the board at our next meeting.

We have spent the last several meetings talking about themes for negotiations and most recently gave more specific direction regarding the current MOU. Given the sweeping nature of some of the proposed changes along with our responsibility to wrap up negotiations in May, I'd like to request that you work with Brad to bring a new draft of a contract forward, based on the direction given from the Board of Education, that we can vote on and subsequently offer as our negotiating position.

In the absence of something concrete that the board can take action on, I fear the clock is going to run out on our ability to make the changes that I believe are necessary for this district.

I have copied Brad on this email so he is aware of my request as well. Please let me know if you have any questions. Thanks Stan.

Have a great day,

Bryce
